

# Preceptor Agreement

---

## Oklahoma Baptist University College of Nursing Graduate and Professional Studies

### PRECEPTOR AGREEMENT

In an effort to meet individual learning needs, faculty in the College of Nursing encourage students to select their own preceptors and practicum sites with guidance from course faculty. This fosters the development of networking skills in the student and assures preceptor availability at a time and geographic location most suitable to the student's needs.

As a Preceptor, I have received a copy of the course objectives, learning activities, time expectations, and evaluation requirements. I have received a copy of and understand the guidelines for the preceptor, student, and faculty. I understand the terms of this Preceptor Agreement.
